

# CASE STUDY

## Sandcarpet Swimming-Pool Finish at a private residence in Rhodes Island

The home owner wanted a fresh idea...

So the MARITRANS SYSTEM® Sandcarpet  
Decorative Finishing System was selected for this  
unique swimming pool.

The sandcarpet finish was installed by mixing the colored sand with the transparent, one component, aliphatic polyurethane coating MARITRANS®, and applied by flat trowel, creating a beautiful, chemically resistant, hard-elastic, abrasion resistant and anti slip decorative waterproofed floor.

A wide range of colors and designs can be chosen for the sand, meeting every homeowners or architects decorative demand.

### **MARITRANS•SYSTEM**

#### **Advantages of the MARITRANS® Sandcarpet Finish in Swimming Pools:**

- Provides unique design possibilities
- Permanent elastic
- UV stable - Color stable
- Anti-slip and impact resistant
- Minimal additional weight and height added to substrate
- Remains flexible over a temperature span of -40°C to +90°C
- Provides excellent adhesion
- Can be used for pedestrian traffic
- Resistant to detergents, water and swimming pool chemicals
