WOODEN FLOOR ADHESIVE

Maris Polymers[®]
POLYURETHANE SYSTEMS

MARIFLEX PARQUET BOND[®]

The **MARIFLEX PARQUET BOND•SYSTEM**[®] is an integrated wooden floorboard application system with excellent performance.

applications

- ❖ COMPATIBLE WITH ALL TYPES OF WOOD
- ❖ CERAMIC TILES
- ❖ STONES

advantages

- compatible with all types of wood
- suitable for industrial wood floor applications
- does not alter the effectiveness of in-floor heating systems
- allows maximum adhesion to the substrate
- suitable for home renovations without removing old floorboards
- sound proofing / reduces knock noises

MARIFLEX PARQUET BOND•SYSTEM

MARIFLEX PARQUET BOND•SYSTEM

is a premium bonding system for both indoor and outdoor applications such as: houses, offices, shopping centers, industrial buildings, etc.

The **MARIFLEX PARQUET BOND•SYSTEM** offers:

- easy and uniform distribution of adhesive to the substrate
- quick application
- quick drying
- may be applied in different thicknesses with the proper trowel
- single component product
- supplied in a special aluminum-bag packaging (3-pack to avoid unnecessary wasting of material)
- allows low consumption /m2

The **MARIFLEX PARQUET BOND•SYSTEM**

consists of the compatible components:

MARIFLEX•EP PRIMER

Two component, epoxy primer for non-absorbent surfaces

MARIFLEX•PU PRIMER

One component, polyurethane primer for absorbent surfaces

MARIFLEX•PARQUET BOND

Single component polyurethane elastic adhesive agent

MARIFLEX•PU 40

Single component sealant / adhesive for indoor/outdoor use
