

# MARISOLV® 9070

Solvent / Diluent

TECHNICAL DATA SHEET  
Date: 1.11.2023 – Version 22

## Product Description

MARISOLV® 9070 is fast vapor solvent / diluent mixture suitable for two-component polyurethane paints such as MARIPUR® 7250

1

### Product Information

- One-component, solvent / diluent mixture

### Packaging

- 1lt metal pails

### Color

- Transparent

### Advantages

- Excellent compatibility with MARIPUR® 7250 coating
- Rapid evaporation
- Excellent solubility
- Suitable for use both for hand application and airless spray application

## ■ Uses

---

MARISOLV® 9070 is used as a solvent / diluent in combination with MARIPUR® 7250.

## ■ Application

---

Add MARISOLV® 9070 into MARIPUR® 7250 and mix with a low-speed electrical mixer, for 2-3min, at a ratio of 10% by weight.

For detailed application instructions, contact our technical department.

## ■ Safety measures

---

MARISOLV® 9070 contains Butyl Acetate. Flammable. See information supplied by the manufacturer. Please study the Safety Data Sheet. **PROFESSIONAL USE ONLY**

Our technical advice for use, whether verbal or written, is given in good faith and reflect the current level of knowledge and experience with our products. When using our products, a detailed object-related and qualified inspection is required in each individual case in order to determine whether the product and /or application technology in question meets the specific requirements and purposes. We may guarantee only that our products are compliant with their technical specification; correct application of our products therefore falls entirely within your scope of liability and Users are responsible, in any case, for complying with local legislation and for obtaining any required approvals or authorizations, when necessary, either for their purchase and/or for their use. Values in this technical data sheet are given as examples and may not be regarded as specifications. For product specifications contact our technical department. The new edition of the technical data sheet supersedes the previous technical information and renders it invalid. It is therefore necessary that you always have to hand the current code of practice
